Education

College: Izmir University of Economics

2007-2014

Bachelor's Degree: Industrial Systems Engineering

Senior Project: ERP Applications in Limited Capacity Planning

Project's Aim: To construct a mixed integer mathematical model in order to solve the limited capacity planning problem at Baylan Water Meters and applying this model to IFS ERP software via the use of an advanced planning ERP module for easier daily use.

High School: 60. Yıl Anadolu Lisesi

2003-2007

Internship Experiences

 Egeria Software and Consulting

July-August 2013

- Data entry to IFS ERP database
- Data alteration at IFS ERP database
- Module customization towards customer needs

<http://www.egeria.com.tr/>

 PAK Gıda Üretim ve Pazarlama A.Ş.

July-August 2010

- Production Planning
- Data entry to SAP ERP database
- Monitoring of the production process

<http://www.pakmaya.com.tr/> İnci Akü San. ve Tic. A.Ş.

July-August 2009

- Quality Control
- Data monitoring on SAP ERP database
- Monitoring of the production process

<http://www.inciaku.com/> Migros Ticaret A.Ş.

June-August 2008

- Inventory Management
- Order Processing

<http://www.migros.com.tr/>

Skills

Languages:

Personal Information

Interest:

-  Table Tennis
-  Cooking
-  Chess
-  Popular Physics
-  Computer Games

Birth Date: 1st October 1989

Military Status: Suspended until 30.09.2016

Marital Status: Single

About Me: I am an enthusiastic industrial systems engineer graduate. I have received detailed education about the topics that are written above and eager to put them to use in real life situations. I am very fluent in English and can speak Spanish at a level of daily requirements level. I have been playing table tennis since 2003 and won the 4th place in Izmir in 2007. I am looking for a job that will require me to use the engineering thinking and problem solving skills which I have learned to use during my education and internships. I have worked with IFS ERP thoroughly during my senior project and also have seen two different customizations of SAP ERP during my internships. With these experiences I am familiar with the workings of an ERP system and able to learn the specifics of one in a short time.
